

Select BioCycle[®] Concentrate

PURPOSE The Select BioCycle[®] Concentrate is a direct-fed microbial feed supplement designed to be fed to cattle of all ages to enhance feed intake, improve ruminal fermentation and support immune function during immune challenges, weaning, receiving, pre- and post-calving, off-feed or low-intake periods.

USAGE **Cattle, under 500 lb:** 2.5 g per calf daily at weaning or receiving
Cattle, over 500 lb: 5 g per head daily during immune challenges or low intake periods
Last 1/3 trimester pregnant cows: 5 g per cow daily via free-choice minerals, feed supplements or mixed rations
Post-calving cows: 5 g per cow daily via free-choice minerals, feed supplements or mixed rations

BENEFITS

- ☑ Enhance digestive tract health
- ☑ Restrict pathogen growth and digestive disorders
- ☑ Fewer health treatments of calves and less labor for calf treatment
- ☑ Protect intestinal villi to enable greater nutrient consumption
- ☑ Enable greater body weight gain

FEATURES

- High level of beneficial yeast culture and active yeast to supply nutrients and factors to encourage fiber- and starch-fermenting ruminal bacteria
- L-form (cell wall-deficient) bacteria to enhance proper immune function and stabilize digestive tract pH
- Egg-based specialized proteins to restrict the growth of: *E. coli* K88 and K99, Rotavirus
- G6 and G10, Bovine coronavirus, *Salmonella typhimurium* and *dublin*, Cryptosporidium and *Clostridium perfringens* A and C.
- Enzymes to assist with ruminal digestion and provide nutrients to ruminal bacteria

PELLETING CONDITIONS The BioCycle Concentrate can be added to other feed ingredients for pelleting at temperatures under 165°F.

GUARANTEED ANALYSIS
per g BioCycle Concentrate

Fungal amylase (<i>A. oryzae</i>).....	7,000 SKB/g
Fungal protease (<i>A. oryzae</i>).....	5,000 HUT/g
Lipase (<i>Candida cylindracea</i>).....	500 FIP/g
Cellulase (<i>T. reesei</i>).....	5,000 CU/g
Pectinase (<i>A. niger</i>).....	100 ENDO-PG/g
Bacillus subtilis and Lactobacillus acidophilus....	60 million CFU/g

PACKAGING 50-lb bag: 5-g feeding
