

BIOFRESH[®]

MICROBIAL BOLUS

Give cows the support they need to stay on track, perform at their best, and recover quickly.

- ✓ Supports recovery of sick and off-feed cows flagged by activity systems
- ✓ Faster bounce-back for fresh cows
- ✓ Restores feed intake and ruminal fermentation for off-feed cows
- ✓ Enhances immune function for challenged and high SCC cows

Keightley & Core
Jerseys
Salvisa, KY

“BioFresh Bolus is one of the first things we reach for when we get a health alert on a cow through CowManager®. Off-feed or whatever the issue is, we give BioFresh to get her back eating. We also use it at freshening, and it really supports a smooth transition. We’ve noticed it also helps with reproduction and our somatic cell count down the line.”
