PRODUCT #11014 PRODUCT #11015

CONVERT™ Calf Gel

PURPOSE

Bolster the health of new-born and pre-weaned calves by inoculating the digestive tract with beneficial bacteria and restricting pathogen growth, including cryptosporidium and coccidia, with egg-based specialized proteins and phytogenics.

USE DIRECTIONS

- **New-born calves:** 15 mL per calf before or after colostrum consumption
- **Antibiotic or electrolyte therapy:** 15 mL per calf at the time of electrolyte or antibiotic therapy
- **Irregular nutrient intake:** 15 mL per calf daily during periods of irregular nutrient intake

BENEFITS

- Enhance digestive tract health
- Restrict pathogen growth and digestive disorders
- Fewer health treatments of calves and less labor for calf treatment
- Protect intestinal villi to enable greater nutrient consumption
- Enable greater body weight gain

FEATURES

- Four species of direct-fed microbial bacteria and yeast for digestive tract inoculation to out compete pathogenic bacteria, protecting the intestinal villi and stabilizing digestive tract pH.
- Beneficial cell wall-deficient bacteria for immunomodulation and stabilizing digestive tract pH
- Egg-based specialized proteins to restrict the growth of E. coli K88 and K99, Rotavirus G6 and G10, Bovine coronavirus, Salmonella typhmurium and dublin, Clostridium perfringens A and C and Cryptosporidium
- Phytogenics: Cineole (Eucalyptus oil), Punicalagins A & B (Pomegrante extract), Carvacrol (Oregano) and Fenugreek extract to restrict the growth of Coccidia (Eimeria zuernii and bovis).
- Vitamin A & E to support immune function
- Color trace technology to show proof of application with each calf

GUARANTEED ANALYSIS per 15 mL

Each 15 mL contains a minimum of 20,000 IU vitamin A, a minimum of 200 IU vitamin E, and not less than five billion (5 x 10^9) colony-forming units of live (viable) microorganisms (Enterococcus faecium, Lactobacillus acidophilus, Bifidobacterium longum, Saccharomyces cerevisiae).

INGREDIENTS

Soybean oil, dried egg product, dextrose, silicon dioxide, maltodextrin, vitamin E supplement, distilled monoglycerides, gum arabic, liquid Lactobacillus acidophilus fermentation extract, eucalyptus essential oil, lecithin, titanium dioxide, FD&C Blue #1, oregano essential oil, vitamin A, pomegranate, fenugreek extract, active dry yeast (Saccharomyces cerevisiae), dried Enterococcus faecium fermentation product, dried Lactobacillus acidophilus fermentation product, dried Bifidobacterium longum fermentation product.

PACKAGING

Single-dose, 15 mL tube (18 tubes per box) • **11014**
Multi-dose, 60 mL tube (6 tubes per box) • **11015**
